Opinion

As humanity is rapidly moving towards gearing up to “welcome” the next stage in Human Evolution as represented by autistic beings, especially children with autism, an Emerging field of science namely Brain Theranostics is being enriched by Paradigm-Shifting Autism Treatment Techniques. This article introduces the Emerging Science of Theranostics in Autism and presents the Overview of this leading-edge application that is Transforming the Autism Diagnosis and Treatment Landscape today.

Before we proceed further in our understanding of Autism and Brain Theranostics, let me first clarify the seemingly paradoxical statement about autism being the next stage in human evolution AND autism treatment being mentioned in the same sentence. Autism “qualifies” for the “post” of the Next Stage in Human Evolution by virtue of the Fact that Autistic Beings are extremely energy Sensitive. This energy sensitivity acts like a double-edged sword because the very same energy sensitivity that helps them Thrive with their unique gifts and talents also presents in most cases as Limiting Symptoms, symptoms which if not recognized, understood and healed/cured, invariably results in the autistic person Not being “Able” to or Not being “Allowed” to Express their Inherent Genius abilities offering them their Evolutionary Edge/ Advantage.

Coming back to HOW the field of brain theranostics is being revolutionized, advanced and enriched by the latest autism diagnosis and treatment techniques being applied today, we need to begin with the Definitions first.

Definition of Theranostics

Theranostics, in simple terms means Diagnostic and Therapeutic modalities, techniques, procedures or tools combined into one. In other words, there are Two aspects integrated in the term and those are - Therapeutics and Diagnostics

Definition of Theranostics in the Context of Autism

In the context of autism what this means is - Any tool, technique, modality or procedure which does the “double duty” of not only Diagnosing Autism, but also Treating/Curing/Healing Autism. (And by treating/curing/healing what is meant is the Disappearance of the Limiting Symptoms of autism).

Consider this Scenario - One moment a Nonverbal child with autism is showing no signs of verbal communication and the next moment the very same child is communicating in phrases and sentences and singing rhymes. This is Not a scene from some futuristic Science Fiction movie but a reality that is ALREADY unfolding today. Thanks to the Emerging science of Brain Theranostics in Autism.

How is this “working”? What miraculous scientific discovery is making this possible? The science behind this “manifestation” has its fundamentals in Quantum Physics. It is revealed in the answer to the question - What is everything in the Universe made up of? And the answer to that is - Energy. Everything in the Universe is made up of Energy. At the subatomic level, there is nothing but Energy. APPLYING this very FACT through Applied Energy Medicine in the form of Intent Healing™ is what is working on the ground today helping hundreds of children with autism, especially Nonverbal autism discover their NATURAL ability to communicate through speech.

The Theranostics Tool in Autism

So what is this Theranostics Tool in autism that is bringing about these seemingly miraculous Results in autism? It is Energy Assessment and Applied Energy Medicine. Energy Assessment of the parents and the child with autism or of the autistic individual is the Theranostics Tool in autism that is leading the way in brain theranostics today. Instead of using other theranostic tools such as nanoparticles markers, Energy Assessment can be done by Sensing

and Reading the Energy Fields Remotely and thus Diagnosing What and Where these Energy Disturbances are and the very Same Energy that is applied in this diagnostic procedure is being Applied in the form of Applied Energy Medicine to CORRECT those Energy disturbances at the precise locations in “Real-Time”.

The “Diagnostic Half” of the theranostics tool in autism

The diagnosis is given in the form of an Energy Assessment and Report. Reading which the person can come to a complete understanding of the Energy Disturbances and the underlying Energy Dynamics that is causing the limiting symptoms of autism in the child and in many cases actually Preventing the autistic being from being able to Thrive in Independence and Freedom.

The “Therapeutic half” of the theranostics tool in autism

This aspect is applied as actual channeling of Energy which is Applied Energy Medicine in action and correcting the energy disturbances and the underlying energy dynamics that were revealed by the initial energy assessment and report. And this is done as Remote Healing sessions with Intent Healing (™). The details of this process is described in the book ‘How to Heal Autism and ADHD in 30 Days: The Phenomenally Powerful Breakthrough of Intent Healing (™)’ (<http://authenticautismsolutions.com/autism-e-book/>)

The Challenges in Brain Theranostics and the Advantages of Energy Assessment as the Theranostic Tool in Brain Theranostics

The major challenges in the field of Brain Theranostics today are - Overcoming the limitations of blood-brain barrier permeability, difficulty in targeted delivery to specific brain regions, issues with controlled delivery, and the feasibility for early diagnosis.

ALL of these challenges are addressed in One Go with the Theranostics Tool of Energy Assessment and Applied Energy Medicine. This is thus the “Unconventional” Solution for the challenges being faced in Brain Theranostics today. It may seem “Unconventional” by the standards of “modern conventional medicine” but this is a Solution being Practised since thousands of years that man has been on this planet. As Nobel Prize winning scientist Albert Gyorgi stated almost a century ago “In every Culture and in Every Medical Tradition before ours, Healing was accomplished by Moving Energy”. This is Energy Assessment and Applied Energy Medicine in action in the Emerging field of Brain Theranostics Today.

Evolutionary Leap in the emerging field of theranostics in general and brain theranostics in particular

The autism connecting link and the discovery that is transforming the field of Brain Theranostics today is Applied Energy Medicine and Applied Intentional Epigenetics. Both of which are applied in conjunction in Autism Healing/ Autism Cure/Autism Treatment with Intent Healing (™). This is explained in detail in the book ‘How to Heal Autism and ADHD in 30 Days’. The Paradigm-Shifting Paradox in the field of brain theranostics today is this - Using Human Technological Expertise and Ability to Sense and Read Energy Fields and Patterns as a Theranostics Tool that could make the nanoparticle and other markers related theranostics redundant even before they are applied. Because, this Energy based approach has Relevance in conditions other than Autism theranostics too.

Advantages of energy assessments and applied energy medicine as a theranostics tool in autism and other brain conditions and disorders

- A. Non-Invasive
- B. Precise
- C. Auto adjustment of “dosage” of treatment delivered that is specific for each patient and the condition
- D. Improvements Experienced immediately. Examples of this are in conditions such as Subarachnoid hemorrhage and in Autism
- E. Most Cost-Effective
- F. NO harmful Side-effects
- G. Patients/people with the specific condition feel Self-Empowered as they can be taught HOW to apply it on themselves and SEE/Experience the Results for themselves
- H. Holistic Long-Term solution

Conclusion

Theranostics in Autism is the Leading Edge Science that is transforming the Autism Diagnosis and Treatment Landscape Today. While most of the world is still grappling with the conundrum of the “Cause(s)” and diagnostic criteria for autism, a leading-edge Healing Treatment modality in autism represented by the combined Theranostics of Energy Assessments, Applied Energy Medicine and Applied Intentional Epigenetics is already leading the way forward in the field of Brain Theranostics. The choice rests in the hands of the parents of these autistic beings or the autistic individuals themselves - Either continue to “wait” endlessly for an agreement to be arrived upon (by the “professionals”) regarding the “cause(s)” and the diagnosis of autism or take an Evolutionary Leap (Literally) and rapidly move forward on the path towards Accelerated healing and thriving in Autism today.
